Cybersecurity Consulting And Advisory Services
VISION

Our vision is to be one of the leading providers of innovative cybersecurity solutions that empower organizations to thrive in a safe and compliant secure digital landscape. We aim to be recognized for our commitment to excellence, expect guidance, creativity, and customer satisfaction, and to make a positive impact on the cybersecurity industry in Africa and beyond.

MISSION

Our mission is to empower organizations to achieve their goals by providing creative and effective solutions that ensure data privacy, cyber security, and governance. We strive to cultivate a culture of cyber experts in Africa and beyond by providing education and training, consulting, and advisory services, and conducting research and development. Our commitment to innovation and excellence enables us to deliver best-of-breed solutions that give our clients a competitive advantage in the market while ensuring regulatory compliance and maintaining a cost-effective cyber secure environment.

VALUES

• INTEGRITY: We operate with the highest ethical standards, placing honesty and transparency at the core of everything we do.

• INNOVATION: We embrace creativity and out-of-the-box thinking to develop cutting-edge cybersecurity solutions that deliver value and drive results for our clients.

• COLLABORATION: We work closely with our clients to understand their unique needs and challenges, leveraging our expertise and knowledge to develop tailored solutions that meet their specific requirements.

• EXCELLENCE: We are committed to delivering exceptional quality and service, setting the bar high and continuously striving for excellence in everything we do.

• EMPOWERMENT: We empower our clients with the skills, knowledge, and tools they need to take control of their cybersecurity environment and protect their sensitive information and systems against cyber threats.
As a Cyber Consultancy with a focus on data privacy, cyber security, and governance, we are dedicated to providing our clients with the tools and resources they need to create a secure and compliant cyber environment. Our mission is to assist our clients in achieving their goals by providing creative and effective solutions that not only meet their needs but also cultivate a culture of Cyber Experts in Africa.

With our multidisciplinary competence, we are able to provide our clients with best of breed solutions that give them value for money and a leading advantage in the market. Whether our clients need help with data privacy compliance, cyber security assessments, or governance frameworks, we have the expertise and experience to deliver results.

We believe that a secure and compliant cyber environment is essential for the success of businesses and organizations in Africa, and we are committed to working with our clients to achieve this goal. Through our services, we aim to empower our clients with the skills, knowledge, and resources they need to protect their sensitive information and systems from cyber threats and data breaches. At our Cyber Consultancy, we are passionate about what we do, and we are dedicated to making a difference in the cyber landscape in Africa.

WE SERVE A VARIETY OF INTERCONNECTED EMINENCE DIGITAL RELATED SERVICES

CYBERSECURITY EDUCATION, AWARENESS, AND TRAINING
- Our cybersecurity education and training program covers a wide range of topics, including but not limited to:
  - Introduction to cybersecurity
  - Cybersecurity frameworks and standards
  - Information security management
  - Network security
  - Application security
  - Cloud security
  - Incident response and management
  - Social engineering and phishing
• Cryptography and encryption
• Risk management and assessment

Our training programs are customized to meet the specific needs of our clients and can be delivered in-person or virtually, through our Cybersecurity Academy.

CYBERSECURITY CONSULTING AND ADVISORY
• Our cybersecurity consulting and advisory services cover the following areas:

• CYBERSECURITY GOVERNANCE: We provide guidance on establishing and maintaining a cybersecurity governance framework that aligns with industry standards and best practices.

• RISK AND COMPLIANCE: We assist our clients in identifying and managing cyber risks and ensuring compliance with relevant regulations and standards.

• THOUGHT LEADERSHIP: We provide thought leadership on cybersecurity trends and developments, helping our clients stay up-to-date with the latest threats and best practices.

CYBERSECURITY RESEARCH AND DEVELOPMENT
Our cybersecurity research and development services include:

• VULNERABILITY ASSESSMENTS: We conduct vulnerability assessments to identify potential weaknesses in our clients’ systems and provide recommendations for remediation.

• INNOVATION AND SOLUTIONS DEVELOPMENT: We develop innovative cybersecurity solutions tailored to the specific needs of our clients, including custom applications, tools, and processes.

Overall, our goal is to provide comprehensive, customized cybersecurity services that help our clients protect their sensitive information and systems from cyber threats and ensure regulatory compliance.

BUILDING A STRONG CYBERSECURITY CULTURE AND MAINTAINING A COMPLIANT CYBERSECURITY ENVIRONMENT

Enabling a strong Cyber Security culture and compliant Cyber Security environment is crucial in protecting an organization’s sensitive information and systems from cyber threats and data
breaches. While having the best technology infrastructure can help, it's not the only factor in maintaining a secure environment.

Lack of cybersecurity governance, continuous vulnerability assessments, data classification, systems audit, and accreditation of system administrators are among the major contributors to online vulnerabilities. Without proper governance and continuous assessments, an organization may not be able to identify and address potential security threats or vulnerabilities in a timely manner.

Data classification is also crucial in ensuring that sensitive information is properly protected based on its level of sensitivity. This helps to ensure that only authorized individuals have access to the information and that it is properly secured.

System audits and accreditation of system administrators also play a crucial role in maintaining a secure and compliant environment. Regular audits help to identify any security gaps or weaknesses, while accreditation of system administrators ensures that only qualified and trained personnel have access to sensitive information and systems.

Ultimately, enabling a strong Cyber Security culture and compliant Cyber Security environment involves implementing the right policies, procedures, and practices to protect an organization’s sensitive information and systems from cyber threats. It requires ongoing vigilance and a commitment to staying up-to-date with the latest threats and best practices in cybersecurity.

At our Cyber Consultancy, we understand the critical importance of maintaining a secure and compliant cyber environment.

Our regulatory compatible solutions, including our risk and compliance solution and data privacy and governance techniques, enable clients to gain a comprehensive understanding of their cyber environment, ensure regulatory compliance, and maintain a cost-effective cyber secure environment.

Our multidisciplinary expertise allows us to resourcefully assist clients in creating a sustainable and compliant cyber environment, while minimizing risk through our unique cybersecurity solutions backed by international OEMs. With our solutions, clients can have peace of mind knowing their valuable information is secure and their cyber environment is protected against potential threats.
