LEARnership

“Empowering South Africa’s Youth with Digital Skills.”
Most South Africans businesses and individuals are still not sufficiently equipped in terms of digital skills.

ISTI is a leading provider of skills development solutions in South Africa, committed to making a significant impact on both the business landscape and the lives of ordinary South Africans. Our primary goal is to provide sustainable income opportunities by offering high-quality, transparent, and measurable impact to our partners, clients, unemployed youth, and beneficiaries.

As a SETA-accredited training provider, we specialize in education, training and skills development solutions that include skills development training, enterprise and supplier development solutions, fully accredited learnerships, skills programs, soft skills training, and online learning, including accredited online courses, Instructor Led Training (ILT), Virtual Instructor Led Training (VILT). We work with corporate companies to provide comprehensive skills development training for qualifying learners, entrepreneurs, and SMMEs, thus driving growth and development in South Africa.

At ISTI, we are dedicated to creating innovative training solutions through research and development, ensuring that we deliver impactful and measurable skills development solutions. Choose ISTI, the Experts in Skills Development, as your partner in skills development, and let us help you make a difference in the lives of South Africans.

“Education is the most powerful weapon which you can use to change the world.”

— Nelson Mandela

Everyone needs IT Skills! 
IT Literacy is a critical skill.

230 million jobs will require digital skills by 2023 in Africa according to the World Economic Forum.

Did You Know?
The rapidly changing business landscape is expected to accelerate further. Experts predict that 65% of children currently starting primary school will work in job categories that are yet to emerge, and most of these new jobs will be a consequence of automation.

*This shift will impact both the societal and economic aspects of businesses.*

Given the challenges our educational system faces with regards to its misalignment with industry job requirements, what are the implications for the future workforce of South Africa?

According to the latest World Economic Forum’s Future of Jobs report, it has been found that the most sought-after job roles and skills in 2021 did not exist a decade or even five years ago. This highlights the pace at which new professions and skillsets are emerging, driven primarily by technological advancements and a rapidly evolving business landscape.

These roles include:
- Data Analysts and Scientists;
- AI and Machine Learning Specialists;
- Big Data Specialists;
- Digital Marketing and Strategy Specialists;
- Process Automation Specialists;
- Business Development Professionals;
- Digital Transformation Specialists;
- Information Security Analysts;
- Software and Applications Developers;
- IT Project Managers.

**Why should you choose PAICTA for technology-enabled learnerships?**

- PAICTA offers technology-enabled learnerships through our international partnerships as an authorized vendor for top technology brands worldwide, providing cutting-edge IT expertise.

- Our learnerships are strategically designed to meet the digital, AI, big data, and digital transformation needs of today’s youth, tomorrow’s workforce, and South African organizations.

- Embracing the technological revolution is crucial for taking your business to the next level and avoiding being left behind. Our learnerships support the skills your business will need tomorrow, making them a compelling investment.

- Our learnerships are not just a regulatory requirement, but also a chance to earn skills development points, support South Africa’s future workforce, and future-proof your own organization.

- As your trusted training partner, PAICTA is committed to making a significant impact on transforming humanity’s productivity and lifestyle through high-quality authorized training, enablement, and certification solutions.

- PAICTA is well-known in the industry for meeting stringent standards for educational competency, service, customer satisfaction, and investment in product technologies that enable and certify the current and future generation of IT industry professionals.
The Solutions We Offer

- PAICTA provides instructor-led training for five vendor-endorsed training and certification solutions.
- Our goal is to help your organization realize the full potential of your available technology solutions and human capital.
- We do this by equipping your teams with the knowledge and practical skills they need to successfully adopt, implement, and manage Information Technology Solutions.

PAICTA ISTI: Learnerships

Through our ISTI branch, which serves as an experiential learning arm and provides NQF aligned IT programs, PAICTA presents a variety of personalized training programs that are tailored to meet specific needs. It is a valuable resource for businesses looking to invest in such programs.
